

DIY*

FACT: Squatters and housing activists living in Amsterdam who do not have Dutch as their native language often encounter a language / culture barrier that adds an extra layer of difficulty to their activism.

The DIY (* Do-It-Yourself) self-help group consists of English-language activists that meet *every first and third sunday* of the month to help each other with these problems. Translation issues, Dutch housing politics / laws / activism, dealing with the NUON, whatever you want to discuss...

**Next meetings: 7pm, Sunday
November 4th & 18th**
